2AS Sistemas

Oct 9, 2010

2AS Sistemas is a world class software and services company that capitalizes on more than 30 years of software and systems experience. Having developed custom software for a wide range of platforms (from mainframes to embedded devices) and worked with several industry segments, 2AS Sistemas now leverages its expertise to produce end-user software with focus on mobile platforms.

With the release of *Change-@-Phone*, an utility for the iPhone and iPod Touch that performs bulk changes to the device's Address Book, 2AS Sistemas is highly committed to provide high quality and reliable software and services.

Change-@-Phone version 1.0.1 is available immediately at Apple's iTunes App Store.
